of never saw anything like some of these countrymen!" he grumbled one day, when he returned from a fishing expedition. He had started when the wind was east and the sky overcast, only to have the wind die down and the sun come out hot and blinding, and his feelings were injured in consequence.

"What's the matter now?" inquired his wife, as she hastily removed some work from the chair toward which she saw his feet were tending.

"Why, I asked a farmer out on the Greenham turnpike, not more than three miles away from Long pond, whether I was half-way there, and he said in the most indifferent way that he wasn't prepared to tell, but he'd like to know where I was stopping.

"Well, didn't you tell him?" quavered Mrs. Lawton, her face halfhidden in her handkerchief.

Tell him? No! What business was it of his, particularly when he'd refused to answer a civil question?" said Mr. Lawton, indignantly. "I just stumped along till I came to a guide-board. They're the most disobliging lot!"

Jasper county has been noted for the high grade of eloquence produced. by the public men of that part of Mississippi. An appeal to the 'mighty men of Jasper," made by one of that county's great men when a candidate to the voters who elected him, is as follows:

If I can be instrumental in the hands of my people in adding a few jewels to those that now shine in imperishable luster on the queenly brow of our proud commonwealth, whose associated radiance, like the lambent beauty of the stars, is to guide the footsteps of her children along the paths of peace and prosperity, security and happiness, I shall then have accomplished the ambition of my life."-Mobile Register.
